Oct 10th  Fri Nov 7th
Parents are welcome to stay for coffee & a chat

School Banking Day is Tuesday
Monday 14th July  Term 3 Pupil Free Day

Principal’s report
This week the teachers are putting the final touches to their reports so I can read about all the students’ achievements this semester before they go home to you. The cooking classes have been in full swing again with lots of food being prepared for the High Tea on Wednesday 25th June. If you haven’t sent back your acceptance yet please notify the school so we can set a place for you at the table. Thank you to Mrs Joan Keil for filling the Acting Principal position while I was on Long Service Leave, she has made my transition back so easy. I would also like to thank Mrs Jenny Nowak and Mrs Claire Bailey for so expertly covering Mrs Keil’s grade 3/4 and Mrs Anna English for covering the teachers’ planning time and for teaching science. School Council meets on Monday night next week and one of the issues we will be discussing is the formation of a committee to organise our school fete. If you are interested in being on this committee please leave your name at the office so we can keep you ‘in the loop’.

Zonda Lynn - Principal

Our annual High Tea is happening on Wednesday 25th June. Please make sure your reply card has been sent to school with your child or let the office know if you are coming along so we can set a place for you.

Jo Knight
Trashless Tuesday
The results for this week’s Trashless Tuesday are as follows:
1st Prep
2nd Staff
3rd 1/2H
4th 3/4K
5th 5/6G

Grade 3/4
The grade 3/4 students have been learning about the human body and its systems that make it work.

Some body facts:
You can’t sneeze with your eyes open.
It takes 200 muscles to walk!
Each hand has 27 bones.
It takes about 17 muscles to smile!
Amber

Grade 2/3
The grade 2/3 class has been working hard in Investigative Math’s; some fantastic arrays have been made

I have learnt about the body that the heart pumps out blood and the blood goes down your veins and it does something down there, I don’t how yet, but when the blood comes back up it collects oxygen then goes back to the heart then the whole thing happens again.
Bryon

This term we have been learning about the body. We made a body project and mine was about the brain. I have learnt a new fact about the brain, it is ‘the brain has about 12 - 13 watts of energy that is enough to power a light bulb’.
Keira

Our bodies have a clock, not just a ticking clock of course. Can you guess where this clock is located?
Not on your wrist of course!
But it is located in the most amazing part of your body The BRAIN!
Seth
